Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 3-6, 8-11 and 13-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Specifically, a mask covering the portion of the top portion of the adjustable main body below the first collimating element is not disclosed in the specification. At Page 0026 the specification says "In addition, the adjustable collimator 20 can further comprises a mask 220 covering the portion of the adjustable main body 202 below the first collimating element 210a." and in Fig. 3 the mask 220 is shown at bottom portion 206b. It is unclear where the mask covers the top portion 206a. Clarification is needed.

Response to Arguments

Applicant's arguments filed October 5, 2007 have been fully considered.

Applicant has argued that the prior art of record does not teach "a mask covering the bottom portion and portion of the top portion of the adjustable main body below the first collimating element and surrounding the second collimating element." the Examiner as discussed above applies a 35 U.S.C. 112 1st paragraph rejection to the claims because

Art Unit: 1795

it is unclear how the specification and the drawing support a mask covering the portion of the top portion of the adjustable main body below the first collimating element. At Page 0026 the specification says "In addition, the adjustable collimator 20 can further comprises a mask 220 covering the portion of the adjustable main body 202 below the first collimating element 210a." and in Fig. 3 the mask 220 is shown at bottom portion 206b. It is unclear where the mask covers the top portion 206a from the specification and the Figures. Clarification is needed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
